HONORS

UT Dallas Full-Tuition, Academic
Excellence Scholarship

EXPERIENCE

MICROSOFT

Summer 2019

Software Engineering Intern - Seattle, WA

- Enabled global, read-only IntelliSense in IDEs and pull requests for the largest repository in the world (Windows OS repo)
- Leveraged Language Server Index Format (LSIF) to generate and merge IntelliSense databases
- Developed multi-threaded C# command line tool to run LSIF generation and merging
- Developed VS Code extension using TypeScript to view IntelliSense data

JPMORGAN CHASE & CO.

Summer 2018

Software Engineering Intern - Dallas, TX

- Developed customer care, lead-tracking application using Angular, HTML/CSS, Java, Spring Boot, and SQL
- Designed and normalized application database to track customer info, call history, and sales leads

ULTIMATE SOFTWARE

Spring 2018

Software Engineering Intern - Weston, FL

- Developed UltiPro tax compliance tools using C#, .NET, and SQL
- Wrote stored procedures, data migrations, and utilized Microsoft SQL Server to manipulate and manage the tax engine database
- Utilized test-driven development in writing unit, functional, and integration tests

PROJECTS & ORGANIZATIONS

TEXTBOOKSCITY.COM

Summer 2017

- Developed textbook price comparison site and internal book price API using Node, Express, Angular, HTML/CSS, and JavaScript
- Received 5000 unique visitors across 40+ universities in August 2017.

ASSOCIATION OF COMPUTING MACHINERY

Fall 2017

- HackUTD Logistics Coordinator
- Coordinated hackathon schedule and logistics for 550 attendees

UX DESIGN CLUB

Fall 2017
