

CHRIS HUYNH

Software Engineer

 (214) 794-1558

 chris.huynh.c@gmail.com

EXPERIENCE

Centree Technologies - *Front End Developer Intern*

Fall 2017 - Atlanta, GA (Remote)

- Currently employed - description pending completion of internship.

PROJECTS

Textbookscity.com

Summer 2017

- Developed textbook price comparison site using Node.js
- Sorted and compared prices across 15+ vendors (Amazon, Chegg, etc.)
- Created and deployed personal price API with Heroku and Express
- Implemented front-end with Angular and Bootstrap
- Utilized Amazon Product Advertising API

Stoks

Summer 2017

- Created real-time, stock data analytics tool using Node.js and Socket.io
- Gathered stock data and news using Express, Cheerio, and Request
- Deployed back-end using Heroku and MongoDB
- Implemented front-end with React.js, Bootstrap, and jQuery

Flash

Summer 2016 - Fall 2016

- Developed mobile iOS application that generates quick and quality recommendations on restaurants, cafes, and bars nearby
- Created location recommendations using Google Places and Maps API
- Implemented full authentication and database using Swift and Firebase

Wildre.com

Summer 2016 - Winter 2016

- Founded Wildre Shirt Co., a T-shirt company which donates to the WWF, and designed/developed ecommerce site wildre.com.
- Developed site using JavaScript, HTML/CSS, jQuery, Bootstrap, and with the implementation of Shopify API

Chrishuynh.com

- Developed personal site using HTML, Sass, and JavaScript
