jQuery

HONORS

UT Dallas Full-Tuition, Academic Excellence Scholarship

WORK

JPMORGAN CHASE & CO.   Summer 2018

Software Engineering Intern - Plano, TX

Developed customer care, lead-tracking application using Node, Angular, and SQL. Utilized Karma and Selenium frameworks for unit and UI testing.

ULTIMATE SOFTWARE   Spring 2018

Software Engineering Intern - Weston, FL

Developed UltiPro tax compliance and payroll tools using C#, .NET, and SQL. Wrote stored procedures, data migrations, and utilized Microsoft SQL Server to manipulate and manage the tax engine database. Utilized test-driven development in writing unit, functional, and integration tests.

PROJECTS

TEXTBOOKSCITY.COM   Summer 2017

Developed textbook price comparison site and internal book price API using Node, Express, and Angular. Received 5000 unique visitors in August 2017.

FLASH   Fall 2016

Developed mobile iOS application that generates personal recommendations on restaurants, cafes, and bars nearby using Google Places and Maps APIs, Swift, and Firebase.

ORGANIZATIONS

ASSOCIATION OF COMPUTING MACHINERY   Fall 2017

HackUTD Logistics Coordinator

Coordinated HackUTD events and venue layout. Planned hackathon schedule, building safety, and logistics.

USER EXPERIENCE CLUB   Fall 2017

Officer of Student Engagement

Managed social media presence and marketing. Helped organized club events and gathered student feedback. Conducted promo events as well as class visits to promote UX and design.
